EDUCATION

University of Washington

Bachelor of Science in Informatics

Seattle, WA

Expected June 2027

TECHNICAL SKILLS

Languages: Python, TypeScript, JavaScript, Go, Java, C#, SQL, HTML/CSS

Frameworks & Tools: React, Next.js, Node.js, FastAPI, Flask, PostgreSQL, Docker, Prisma, Tailwind

Cloud & AI: GCP, AWS, BigQuery, Firestore, OpenAI API, LangChain, Scikit-learn, Pandas

EXPERIENCE

AI Research & Development Intern

Sector Cybersecurity

Aug. 2025 – Feb. 2026

Remote – Jakarta, Indonesia

- Reduced penetration testing time by 30–40% per engagement by building AI automation tools deployed across 5 testers.
- Improved data processing efficiency by 20% over manual regex-based methods by training AI models on XOps operational data.
- Flagged security vulnerabilities across client engagements by developing automated threat detection systems, reducing manual triage time per assessment.

AI Engineer Intern

Stockbit

Jul. 2024 – Sep. 2024

Jakarta, Indonesia

- Improved identity verification accuracy to 92% and cut approval time by 25% by designing an OCR and AI pipeline for KYC document extraction.
- Shipped production-ready AI model integration by building Python and Node.js backend APIs deployed across a microservices architecture serving active users.
- Improved model accuracy by 15% and reduced processing time by 40% by engineering BigQuery and AWS pipelines across 1M+ records.

Game Developer Intern

VR Park (StarCamp Asia)

Sep. 2022 – Jan. 2023

Jakarta, Indonesia

- Reached 60+ daily players across two mall locations by developing and deploying multiplayer VR systems in Unity (C#).
- Improved frame rates by 25% and reduced load times by optimizing user interactions and integrating VR SDK and networking plugins.
- Reduced integration overhead by building reusable multiplayer networking modules, cutting setup time for new VR game deployments.

PROJECTS

AI Transfer Evaluation Tool | Next.js, TypeScript, React, Claude API

Nov. 2025

- Eliminated manual credit review by building an AI system that parses WA community college transcripts and generates UW-equivalency reports instantly.
- Won **1st place** at the Anthropic Claude Hackathon hosted by the Claude Builder Club at UW. Live at transfer.joechamdani.cloud.

IShowStream | Go, Python, FastAPI, React, Firestore, Cloud Run

Nov. 2025

- Delivered real-time Twitch chat insights by building a 5-agent system using Google ADK and Gemini AI for spam detection, message ranking, and engagement prediction.
- Achieved production-ready deployment by architecting a Go and Python backend with Firestore on Google Cloud Run.

LEADERSHIP & COMMUNITY

President

Bellevue College Tech Club

May 2024 – Jun. 2025

Bellevue, WA

- Grew active membership from 20 to 35+ students by leading 15+ technical workshops and community events over two semesters.
- Managed cross-functional leadership team coordinating planning, outreach, and club strategy across all initiatives.

Organizer & Web Developer

BC Hacks 2024

Jan. 2024 – Jul. 2024

Bellevue, WA

- Supported 160+ participants by designing the official hackathon website and coordinating on-site logistics.
- Delivered a successful 24-submission event by managing 12 volunteers and 6 judges across all event operations.
